

## Professional Quality, Fast *and* Affordable

Online video is the best way to inform, educate and motivate a wide range of potential customers. High costs used to keep quality production out of reach for most small businesses, but they are no longer a barrier with **Instant Video**.

**Instant Video** gives you the advantage over competitors. You'll immediately have your business message in an interesting, quality package that you can share on your Web site, popular social networking sites like YouTube, Facebook and many others.

And it only takes an hour of your time!

## Don't Sacrifice Your Brand with Low-End Production

Odyssey Creative produces all of its work in high definition to ensure that your content meets quality standards required for exhibit booths and sales presentations – even television. Once you own the video, it's yours to use and share however you wish.

## Your Instant Video includes:

- ✓ Script development questionnaire
- ✓ On-camera interview with up to three members of your team
- ✓ Supplemental footage shot at your location
- ✓ A one-minute, high definition video for the Web
- ✓ Background music and basic graphics
- ✓ Your review cut is delivered within 3 business days of the shoot

**An Instant Video is just \$200 a month over 12 months (payable by credit card), or pay upfront and save 10%**
